Poker tool software company

PokerTracker Software, LLC is the name of a poker tool

software company that produces the PokerTracker line 9 of poker tracking and analysis software.[1][2] PokerTracker's software imports and parses the hand histories that poker sites create during online 9 play and stores the resulting statistics/information about historical play into a local database library for self-analysis, and for in-game opponent 9 analysis using a real-time Head-up display.[1]

The software allows the user to

monitor each poker session's profit or loss, hands played, 9 time played, and table style. It calculates and graphs statistics such as hands per hour, winnings per hand, winnings per 9 hour, cumulative profit and loss, and individual game profit and loss across multiple currencies.

Products [edit]

The logo associated with 9 PokerTracker

3

PokerTracker Software, LLC produces poker analysis software. Examples include PokerTracker Holdem v2, PokerTracker Omaha v2, PokerTracker 3 Hold'em (PT3) 9 for Texas Hold 'em, PokerTracker 3 Omaha (PTO) for Omaha Hold 'em, PokerTracker Stud for Stud poker, and TableTracker.[3] The 9 company previously developed the PokerAce Head-Up Display, also known as PokerAce HUD or simply PAHUD, which provides real-time information for 9 live online poker play;[4] the functionality from this formerly separate application was eventually incorporated within PokerTracker 3. Collectively, the company's 9 software has been described as "among the most comprehensive software

programs in the online poker industry" by PokerSoftware.[5] The company 9 subsequently developed PokerTracker 4 in 2012 and 2013, which is its most recent software development.

PokerTracker 3 [edit]

The general 9 info tab view of a sample database in

PokerTracker Holdem v3.00 beta 29, including user customized columns such as final 9 tables and highest percentile finish.

In September 2009, the company announced that as

of March 31, 2010, PokerTracker Holdem v2 would 9 no longer be supported. The decision was made because PokerTracker 3 had been released on May 15, 2008, nearly two 9 years prior to the end-of-life date. The company felt that discontinuing support of v2 would avail resources which could be 9 dedicated to improving PT3 and providing exceptional customer service.[6][7] Similarly, on December 31, 2010, PokerTracker Omaha v2 would no longer 9 be supported, as its features have been completely integrated into the PokerTracker 3 product line.[8]

PokerTracker 3 supports online poker from 9 the following

poker networks and/or sites: 888 Poker Network, Bodog, Boss Media, Cake Network, Cereus Poker Network, Entraction Poker, Everest 9 Poker, Full Tilt Poker, IPoker, Microgaming, Merge Gaming Network, OnGame, PartyPoker, PokerStars and Winamax.[9] PokerTracker is available natively for both 9 Microsoft Windows and Mac OS X-based computers.[7]

PokerTracker 3 competes against several similar programs.[10] According

to Total Gambler, its most notable 9 competitors are Hold'em Manager and PokerOffice,[10] while Pokersoftware considers only Hold'em Manager to be a serious competitor.[11]

PokerTracker 4 [edit 9]

PokerTracker 4 is poker tracking software that

is designed for several types of online poker: No-Limit, Limit, or Pot-Limit cash 9 games, Sit N' Go's and Multi-Table Tournaments for both Texas Holdem and Omaha players.[12] It is compatible with almost all 9 online poker websites' software and interfaces.[13] PokerTracker 4 began public beta testing in March 2012.[14] In August 2012, the company 9 commercially launched a Microsoft Windows version of PokerTracker 4.[15] In January 2013 as PokerTracker version 4.05.10 was rolled out, the 9 company began alpha testing an Apple OS X version of the software.[14][16] PokerTracker 4 was produced from scratch rather than 9 by refining PokerTracker 3 and other earlier versions.[17]

On most online poker sites, players can have the client software create a locally stored text file that 9 records the hand history as shown in the 'Sample Hand History' example. These hand histories summarize the details of the 9 hand in a format that can be parsed by computer software. PokerTracker reads these files and extracts the relevant information, 9 which it converts into a database for later review or statistical analysis.[11] The software is capable of combining hand history 9 details of multiple accounts from different online poker services, which allows a user to aggregate his or her data.[18] Statistical 9 summaries can be consolidated from different poker sites regardless of whether the user's screen name is the same at each 9 site.

PokerTracker is capable of analyzing cash ring games in which players play for cash during each hand, sit and go 9 tournaments in which players compete for set prizes after the prescribed number of competitors join the tournament, and multi-table tournaments 9 in which players compete for tournament prizes based on the total number of entries at the scheduled start time. Statistics 9 can be tracked by position, session, tournament, best & worst hands, and hand results. This helps the user analyze statistics 9 based on starting hand or final hand. The software also enables the user to replay any specific hand.[19]

The software's database uses tournament summaries such as 9 the 'Sample Tournament Summary' example and hand histories to provide a three section summary (see infobox screenshot). The top section 9 of the general information tab provides tournament summaries of profit/loss as well as ordinal placement summary. The other sections summarize 9 situational statistics based on the level of the blinds and the starting hand. Additional tabs in the software produce detailed 9 information for various statistical interests.

PokerTracker's probability graphs, as well as historical statistics of the hands a user and his or 9 her opponents have played, enable the user to analyze conditional statistical possibilities and optimal betting amounts. The situations it analyzes 9 are conditional on the opposition's playing characteristics and the player's position relative to the dealer.[20] Graphs can be produced for 9 a single session or for any part of one's playing history.[19] One of the biggest improvements in PokerTracker 3 over 9 PT2 is that it is fully customizable so that all statistics and reports can be tailored to the individual user.[11][21] 9 The Guardian claims most serious players use PokerTracker during online play to constantly calculate situational optima.[22]

PokerTracker 3 version v3.00 beta 9 29 Profit graph

PokerTracker 3 is also

known for its integrated heads-up display, a transparent video overlay data presentation that makes 9 statistics and notes are readily available during play. The HUD allows an online poker player to focus his attention on 9 the poker table he or she is playing at, rather than on the PokerTracker application. The HUD provides a vast 9 array of realtime statistics for in-game analysis, customizable to the user's preference.[19]

In addition to the statistics available constantly during 9 play on the poker window, detailed statistics are available in a pop-up window, accessible via a single mouse click.[23] Marbella 9 Slim of the Daily Star used the vision of Arnold Schwarzenegger's Terminator character in an analogy with the HUD: "In 9 some scenes, you get to see what the robot Terminator is seeing and he has all these data streams in 9 front of his vision - it's a HUD or a head-up display." [24] Unlike other poker tracking products, PokerTracker 3 includes 9 a HUD as part of the basic program.[11] The PT3 HUD, which automatically overlays a player's opponents' statistics next to 9 their avatars, is essentially a built-in version of the formerly available PokerAce HUD.[21]

PokerTracker

v2 will no longer be supported after 9 March 31, 2010.

PokerTracker 3 also offers a

monthly subscription-based service called TableTracker. TableTracker is an integrated service that automatically identifies 9 ring tables with competition suitable to the user's playing style.[21] PokerTracker's servers constantly monitor which players are playing and what 9 tables they are playing at on various major poker sites,[25] which allows TableTracker to find the weakest players across multiple 9 online poker

websites.[19] The user can search based on the software's built in scoring system or any other statistics of his or her choosing.[25]

Use and legality [edit]

PokerTracker

3 includes a HUD overlay as seen in this Pokerstars online 9 poker session

Serious poker

pros and casual amateurs alike can benefit from the poker tracking software,[26] and poker magazines such as 9 Card Player repeatedly remind poker players of the usefulness of tracking software.[27][28] Total Gambler says that in addition to experience 9 and skill the other necessity for a gambler to become a professional poker player is a good software package such 9 as PokerTracker.[29]

Several websites portray PokerTracker as

either the world's leading or the world's most popular poker tracking software. For example, 9 Pokersource describes it as "the most popular poker tracking and analysis software available"[2] and Party Poker describes PokerTracker as "the 9 original and largest piece of poker tracking software".[21] PokerSoftware says "Poker Tracker has been the industry standard ... for years".[11] 9 Total Gambler says that for more than a two-year period PokerTracker 2 was the "prominent force in online poker tracking", 9 but at the time of its December 2008 review it speaks of this leadership position in the past tense, noting 9 that PT3 had not yet been "fully released" at the time of its testing.[10]

Major online card rooms forbid the use 9 of software that gives a player an "unfair advantage." This typically includes software that allows players to share their hole 9 cards with other players during live play and software that automates decision making. Since PokerTracker software doesn't fit into either 9 of these categories it is generally allowed on most sites, including industry leader PokerStars.[2][30] Legality aside, some players feel the 9 use of PokerTracker takes away from the game; for example, Victoria Coren of The Guardian remarks "there is only one 9 downside [to using PokerTracker]. Where's the bloody fun in it?"[22]

betano a fazenda aposta :bonus de apostas de andebol

Betano, uma popular plataforma de apostas esportiva e cassino online tem ganhado popularidade entre os jogadores brasileiros. No entanto muitos players ainda não sabem se o beta no iOS está disponível para dispositivos móveis ou Android (iOS). Neste artigo vamos responder à essa pergunta com um resumo da disponibilidade do sistema operacional em betano a fazenda aposta seu dispositivo móvel:

Betano está disponível em betano a fazenda aposta dispositivos iOS?

A resposta é sim, Betano está disponível em betano a fazenda aposta dispositivos iOS. O design responsivo da plataforma se adapta a diferentes tamanhos de tela e aparelhos incluindo iPhoneS ou iPad' displaystyle Iphone>e/ipad(i). Isso significa que os jogadores podem acessar jogos do cassino betanos seus equipamentos sem problemas algum!

Como acessar Betano em betano a fazenda aposta dispositivos iOS?

Para acessar Betano no seu dispositivo iOS, siga estas etapas:
