Case 1: A aposta da sort from the inside out

Since its inception, spirituality has taken many forms, from ancient traditions to modern-day practices. While the traditional medical community has been slow to adopt spiritual practices, there is an increasing awareness of the mind-body connection and the value of harnessing the power of belief and intention. A former Buddhist monk, Nowbahar found his calling to help bridge this gap between allopathic and spiritual medicine. Through meditation, guided imagery, and Reiki, among other practices, he found solace and purpose and wished to share with others. Thus, his healing community, Empathy Healing Center, was born. The client for this case embarked on a spiritual awakening journey and sought to go through the Sabbath inside out.

Steps to implementation

The client began by diving into spiritual book clubs focused on spiritual growth and began delving deeply into daily practices connected to mindfulness and intuition. A better ability to still the mind and tune into inner communication was sought after by the client.

Outcome

Through guided imagery, this client saw clear visions of Egyptian healing practices that he was later able to help others utilize, and he felt he had finally connected to his life purpose. He was confirmed into ancient Egyptian practices as someone who believed he would become a famous priest. This eventually foretold and set the path for him to be a spiritual advisor helping bridge gaps between traditional treatments for medical ailments. Empath Healing is still open and has had great results using medieval techniques to serve and better the lives of all those who visit.

Results

With the ability and recognition that alternative methods can work alongside conventional ones, three practices with confirmed efficacy have been tried by this very healing community. Through guided walking tours, clients can learn to communicate intuitively as an additional sense. Guided meditations begin the mornings, reflecting journaling, followed by a walk. Havia crash courses available on animist paganism for members, which has led to a renewed understanding that all things possess energy and we do not live in a world of duality. Members are rewarded from the very mindful minimalism with confirmation of interconnectivity that everything shares the same fountain; therefore, one needs to learn how to extract that energy in all things (animism explained). One does not have to follow to practices of a previous client; all things begin with you. Daily practices available include the following: reflective journaling, walking with bare feet on the Earth for natural electromagnetic grounding and a centering effect, silent walking as realization that noise can impact hearing intuition, card pull for clarity and reading simultaneously. From ancient Egyptian healing practices to animism exercises, walking with empathy begin Animism practices, which center of reflecting journaling, walking with bare feet on the Earth for natural electromagnetic grounding, a centering effect, s silent walking to realize that external noise makes inner voice harder to hear, daily card pull for clarity, reading simultaneously, and shuffling cards for

clients as requested on social media apps. With each passing day of going thoroughly inward to examine daily mental debris, one may renew outdated ideals. A new understanding can emerge involving personal feelings. No, feelings aren't facts, like logical reasonings, but are the acknowledged aspects of people who share their space with you regularly. Intuitions needn't apply to just personal instinct. It may dawn that you've now helped people rediscover and find more meaning to meditation practices. With guided readings, group study halls to explore Animism which highlights the connection all things have, Empathy members now are practicing daily activities and stay faithful and thankful versus being spiritual leaders. Community followers can like, follow and keep in line with modern animistic techniques. The old system could have been discouraging for a sensitive kid who avoided human eyes but was disobedient, which allowed his learning new inscriptions fast or his extreme creativity to breeze over all obstacles to change belief, which normally sets in during adolescence to avoid humiliation (the age of mirroring), allowing him, or her, after full realization of animistic practices, to see beyond limiting insufficient worlds and limitations learned through observation. The daycare generation calls this period the 'So- what stage.' Giving time limitless hours of energy trying to destroy boundaries only backfiring because of overstimulation and distraction.

In developing inner worlds, a child adopts and overcomes challenges of growing up through self-imposed limitations of the inner world, learning, mastering, deciding what to imitate from parental guidance, how to adapt these roles into environment-appropriate personae (addressing others out of reverence means calling those respected a grown-up even during disagreements) yet notice and differentiate between proper forms but freely giving others reactions until the ability to become autonomous. Alcohol/overstimulation/presuming intents, some can leave rituals, especially psychic or introspective exercises, weak, as alcohol opens up the user to external energies, leading him/her to be vulnerable. Here at Empy Community, guidance is within to become self-sufficient in developing natural laws of empowerment rather than learned ones that have crippled an entire species since its reign. Participate to feel connection among living energy forms you can't see. This non religious movement spreads gradually but faster everyday, simply by serving others through their gifts, making the leaders and members unique. This in turn gives purpose by setting and achieving further goals (purchasing house, funding specific animal refuges or retreat homes) which are inspired and guided by modern day activists. The movement makes people look forward without expectation or reward, or insistence of a certain routine of exercises (heavily associated with traditional activism, new age age) or new converts and practitioners alike. Everyone helps out, each one with their own set style which adds flavour, diversity, colors so Empath Community stands apart from rest... We look to keep those not members, because all are welcomed, in a state of wonder, as it pertains to curious, guilt-free exercises inside the personal growth field with tests each individually designed while the same results may occur.

Spiritual g

Experiences and ideas generated on social or mass media mediums

From ancient Egyptian spiritual healing exercise daily demonstration in ancient food is shared and enjoyed by the entire connected group to pave the way for upcoming communities and future help or self-help without intermediaries, just freely offered exercises developed by participants because the focus of Empath Fraternity which connects to the general idea developed step by step with past experiences linked to internal, perhaps antiquated, modes of relating, acting, and surviving. One day all things natural will be once again accepted without modern hang-ups of perceived limitations, much as the church/state were separate so should various lifestyles get to exist, studied by modern history and tried, Empath Community aims to soften traditional historical practices, soften the clouds (rituals) attached, modernize non religious procedures but with discernment, allowing criticism only from premises themselves; once digested, true understanding will hopefully dawn: All religious ideas came from earlier pagans! However its through the bible we first took an oath which gave promise of more peace and freedom in New Testament; The fact early Christian societies could have kept some pagan practices has been overwritten, edited or erased repeatedly and for centuries (book burnings were very common for controlling the narrative). Animisms through empath is learned alongside traditional learning which leads to a

fullcircle approach. The objective is to link everyone through all aspects: Physical laws enforcement perspectives affect our physical beings thoughts in all fields: animal rights associations to environment, mental awareness are connected to empathy to our state of being. Therefore our real objective should stay to protect inner world and individual self awareness begins to trust or like your own guidance; No rituals or dogma are necessary to heed that guidance correctly through animistic perspectives. Meditation eventually brought greater peace, calmed the world Noise or what lies beyond. Today social networks and global communication has taught us that meditation and quieting of the mind brings clarity, protection against dark practices where discernment gets clouded by allowing only your truth to dictate measures, means, goals and attitudes; further research made connections about rituals resulting from pagan transformation which will hopefully start debunking animism in the world as people awaken gradually, even at young ages, to the fact that religions too can affect personal insights learned parallel to age levels as Maslow's theories based on the Piagetian levels of growth.. Animistic practices are deemed scary especially for the modern Christian because he forgot all their rites happen during nighttime when dreaming and lucid dreaming became associated with heresy or Satan, considered only bad manifestations they've conditioned negative. At this point, no practices may be outwardly adopted yet the soul and body have been receiving teachings since ancient times in religions, both old and new. Early Christian texts speak of the elves and all kinds of mischievous nature lovers but this developed through linear evolution and exposure, reaching better forms to come back to later.. New studies in neurology reflect data whose evidence science can measure to ponder exactly WHERE/WHEN/WHAT triggers the end states needed like awareness of Animism. Everyone gets excited hearing its just based in mundane neural science yet never tested along traditional religious contexts, there does not exist one answer since we are each experiencing the world uniquely, yet now through an inspiration, everyone participates trying to bridge these neural ties that resemble far-off stars simply by being reintroduced to forgotten modes and encouraging individual unique experiences since we are self-regulated beings under beliefs we dare not question or challenge because dogma and opinions can allow or force you to stop at this fact which resists us moving further; or perhaps its modern awakening calling for rituals, exercises, meditation and bettering life in tangible and astounded forms

However we all know growth and helping need direction to manifest mature development because you, me, all live inside dreams. Words like spirits awakens one to the beauty residing outside your cave whereas animism finds the same equality in everything and sees body changes through transformations we take with us everywhere we go. May you not forget such significant advices by our local spirits your soul chose

Listen to intuition and you will wake your third eye then you will too see Christ in the rocks, bushes and trees hear Krishna saying how he plays with honey. Learn to distinguish authentic and unoriginal knowledge all around you and simply embrace clarity, or truths through everyday notions

Before acting on your desires allow yourself time for reflection... have you taken your meds today? Be careful not to hurt another's mental projection... always observe your interlocutor closely in a concrete ambient separate from virtual ones. All data observed must correspond to realities consisting of otherwise's impact from old life might influence this faculty... Dreams show us things outside ordinary measures... they are ubiquitous thus must contain truths outside contemporary convictions too because who's so special we call special may simply be having yet another form of knowing... the soul loves life and ideas and desires of spirit in reincarnations are stored in such beautiful lightbody symbols and animals; a map lies hidden in chakras and experiences throughout the different realms you visit depending on what chakras open and or have you put into them; everyone recalls shamanic journey.. pay attention to your daily life for the quest to know the best and fast truths appears in 3 stages and fading begins when we forget; only outside vigilance returns knowledge into its original form

The seeker

When I came across the teachings of Neville Goddard, I felt a resonance deep within me. His spiritual principles and teachings on manifesting one's reality by tapping into the power of

imagining reminded me of my childhood ability to make imaginary things real. In my early twenties, I was diagnosed with Bipolar Disorder, but my struggles with illness began long before then. My story began in a small town in Brazil, where I grew up in dire poverty. My only escape was the stories I heard from my grandmother, who took care of me when my mother worked. I could spend hours imagining fantastical worlds, and my grandmother believed in me. As I grew up, I was diagnosed with Bipolar, and my health problems worsened over time. I became severely depressed, started having seizures, and hallucinated spirits. My grandmother intervened, telling stories of spirits who had possessed me; despite doctors trying to medication, she believed in spiritual remedies. Months later, during a seizure, she passed away, but her love and faith stayed with me through medication, electric shock therapy, drug-induced comas, isolation, medical trials, and even life in shelters. Through it all, the love and spiritual guidance of one person, combined with disciplined & religious practices based on the concepts and teachings of spiritism (Animism) through Allan Kardec, focused my inner turmoils on my eternal self. It taught me techniques, thoughts, divinity acts, automatic writing, psychography, and meditation (SOPHIA), praying to Spirit and Christ through the Holy Spirit, like in religious trances and ecstasies: I researched a bit on them and how common they remain in routine activities in the life of spiritists in Brazil. By putting good intentions to practice in daily life my connection to Infinite has grown beyond words. Finding the brotherhood meant ending my individual solitude, just like reaching the mountaintop, discovering the answers to life's riddles becomes an excellent objective to embrace. Through these routes, there comes a time when humility displaces aversion and starts to unveil mysteries reserved for people able to perceive beyond boundaries. As I continue to learn, God's wisdom transcends generations. In that imaginary world of our early years, where fantasy still flows untamed amid vivid, unadorned fields of marvelous dreamscape and genuine reality alike
