

REGULAR PASSENGER SCHEDULE

You are welcome to ride on our trains =**FOR FREE**=
ON THE 2nd SUNDAY OF EACH MONTH,
APRIL THRU NOVEMBER, 11:00 AM to 3:30 PM,
weather conditions permitting, of course.

Your donations are appreciated.
Additional, tax deductible donations may be
mailed to
CALs, 15 Benway Ct, Baltimore, MD 21228

PASSENGER SAFETY

You will be directed to your proper seat and
instructed on how to have a safe and enjoyable ride.

DO NOT drag hands or feet, stand up, lean out, or
turn around on a moving train:

YOU MIGHT CAUSE THE TRAIN TO STOP.

DO NOT touch or lean over any locomotive:
THEY ARE HOT AND MAY BURN YOU.

DO NOT cross in front of a moving train:
THEY CANNOT STOP INSTANTLY.

Small children must be able to sit up on our trains.
They may not be held in arms, on lap, or in carriers.

THE PUBLIC MAY VISIT OUR BUILDINGS
WHEN ESCORTED BY A SOCIETY MEMBER.

INFORMATIONAL SPEAKERS

If your organization is interested in learning about the
use of live steam in model railroading, speakers can be
available at your meeting if arrangements are made with
the Secretary 60 days in advance.

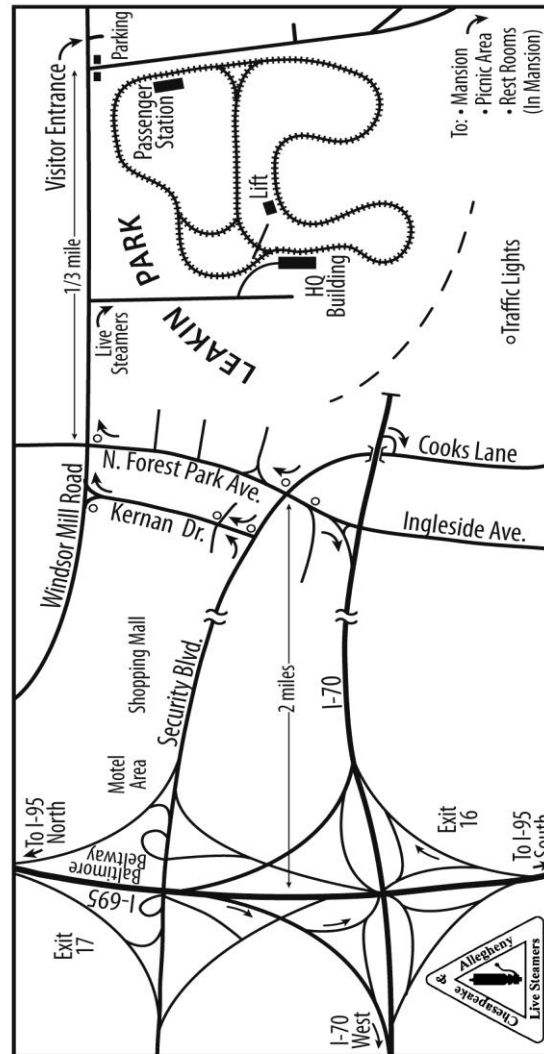

FOR FURTHER INFORMATION

For general information, call the tracksite phone
number given at the bottom of the map page. To join
the Society, print an application form from our website
or contact the Secretary listed under Phone Numbers.

STEAM TRAINS RUN AGAIN IN LEAKIN PARK BALTIMORE

On the 2nd Sunday of each month
April thru November
11 AM to 3:30 PM

Coal-fired 4-6-2 Pacific (1.6" scale)

On the tracks of the

**CHESAPEAKE & ALLEGHENY
STEAM PRESERVATION SOCIETY**

<http://calslivesteam.org>

A TRIP INTO THE PAST IS IN YOUR FUTURE

Many railroads which once crisscrossed America and helped bring together these United States are now only a part of a bygone era. Gone are the steam locomotive's melodious whistle and staccato choo, choo, choos. Gone are the clickety-click of steel wheels over steel rail joints and the nostalgic smell of hot valve oil mixed with coal smoke. All too many track roadbeds throughout this country are now silent where steam trains once carried us with clock-like regularity to faraway places.

But today everyone can discover the lost age of steam railroading by visiting Baltimore's LEAKIN PARK, where you will find our railroad station and a 2-track main line. Our large scale model trains carry both adult and child passengers with ease. The trains are 1/8th full size and some are pulled by a coal-burning, live steam locomotive. As you ride through the park, our trains will carry you around both our Northern and Southern Divisions and past our yards and buildings. The public can ride as passengers on our Public Run Days on the 2nd Sunday of the month, weather permitting, from April through November.

Rides are FREE, but your donations are appreciated.

Additional donation may be mailed to
CALs, 15 Benway Ct, Baltimore, MD 21228

ENTRANCE TO LEAKIN PARK

Enter the park from Windsor Mill Road, two blocks east of North Forest Park Avenue, at Eagle Drive. The entrance to a free parking lot is just east of Eagle Drive, separated by a stone wall. SEE MAP on the reverse side.

For GPS, enter 1950 Eagle Drive, 21207.

THE CHESAPEAKE & ALLEGHENY STEAM PRESERVATION SOCIETY

We are incorporated in Maryland as a non-profit, tax-exempt corporation, under IRS 501(c)(3). Most of our members are from the Baltimore area but many are from D.C. and other states.

Our goal is twofold:

- (1) To preserve knowledge of the part the steam engine has played in the development of transportation, agriculture, industry, and electric power in the United States.
- (2) To create an awareness of the technology, history, and romance of steam engines through exhibits, demonstrations, and educational programs.

Monthly events are held at the park on the 2nd SUNDAY of each month April through November, and our news bulletin, *THE STEAM WHISTLE*, keeps members informed of our activities. We hope you will be convinced to join us in helping others become aware of the past and present technology of steam power.

The public is encouraged to participate on our monthly Public Run Days.

1" scale Locomotive on Elevated Track

1 1/2" scale 4-4-2 Atlantic Coal-fired
Steam Locomotive

The railroad is part of a privately financed, operated, and maintained miniature steam power museum. **It is not an amusement concession.** We demonstrate steam power in other ways although the railroad is most visible. The tracks were built by our members, **without City, State, or Federal aid.** The locomotives are privately owned; so the trains that run are determined by the times their owners can make them available.

Our 10+ acre tracksite has over 2-miles of track in 3 gauges. There are separate ground level tracks in 1" & 1-1/2" scales and elevated tracks in 3/4" & 1" scales. The 1-1/2" scale is gauged at 7-1/2" with curves of 75' minimum radius. Maximum permitted speed is 6 mph. 1" scale is 4 3/4" gauge and 3/4" scale is 3 1/2" gauge.

We are known informally as CALs, the Chesapeake & Allegheny Live Steamers.

Live Steamers from anywhere are always welcome. Contact the Secretary for full schedule, safety regulations, and boiler inspection requirements. All services are available for locomotives in our steaming bays and buildings.
