Rotiki: Slot Overview

Editor's note: Rotiki is available on all Soft2Bet casinos from

June 23. The public release is set for 0 July 14, 2024.

Software provider Play'n GO has

released a good number of grid slots over the years, some of them, 0 like Reactoonz, going on to attain bona fide classic status. The studio certainly knows a thing or two about making 0 these types of games and has filled them with all manner of math and feature combinations. To pad out the 0 collection, they've made a grid slot catering to a different segment of the market. How can we put it... for 0 players after something, gentler? The game is called Rotiki, a Pacific Island-themed game full of cluster pays, respins, and a 0 bonus round Treasure Room feature.

A larger than usual game panel sits

in the middle of the screen between burning torches, 0 and towers of mask-like items, while hills, foliage, and a smoky volcano smoulders in the background. Rhythmical drumming drives the 0 soundtrack and clicking on the towers on the two sides of the grid elicits a chanting vocal effect. The first 0 impressions were quite good, and Rotiki's stack of sturdy looking rock symbols had an inviting 'come smash us' look about 0 them.

Rotiki is playable on any device, where stakes start at 5 p/c per spin at the lowest setting rising to R\$/€100 0 at the highest. Hit spin, and 48 symbols drop into an 6-column, 8-row game area, creating a win when 5 0 or more identical symbols connect in vertical and/or horizontal directions. In a twist, initial wins trigger a respins feature rather 0 than a cascade feature.

To the symbols, where normal pays include four

lower value in-theme icons and four high pay masks. 0 Value-wise, hitting a regular five symbol cluster is worth 0.2 to 1x the bet, while at most, a 48-symbol combo 0 is worth 20 to 100 times the stake.

Rotiki: Slot Features

Following an initial win, 3 respins are

awarded. The winning symbols 0 are locked in place while the rest of the symbols spin. If winning symbols land on the respins, they are 0 also held in place. If a row is filled with winning symbols, +3 additional respins are awarded.

When respins end, if 0 any wild

symbols are part of the win, they spin on their own. When they stop spinning, they may remain 0 as wilds or turn into Hanumi or Whakareia symbols. Hanumi merges connecting clusters into one type of symbol cluster – 0 always the highest value. Whereas Whakareia upgrades the cluster to a random mask symbol. After this has happened, the win 0 is evaluated.

The Treasure Room

If you manage to cover all symbols on the grid with winning symbols, the Treasure Room bonus 0 round is opened. The point of the bonus is to build as large a multiplier as possible. Players get a 0 certain number of picks and then click squares on a grid. Clicked squares reveal blanks, +5 picks, +1 to the 0 multiplier, or the Special symbol, which maxes the multiplier out at x10. The round ends when the picks have been 0 used or the Special symbol is revealed. Then, the winning total going into the Treasure Room bonus is boosted by 0 the multiplier accrued during the feature.

Rotiki: Slot Verdict

While digging around online to see if there was any real-life basis for 0 the word Rotiki, we came across an 'article' on an alternative tongue-in-cheek website. In it, 'Rotiki' was described as 'the 0 poor man's Hawaii', where visitors get free shells and may come across its strangely fierce crab. Yeah, it felt like 0 we were getting punked reading that, and at times in Rotiki the slot, it felt like we were getting punked 0 there too. At least it did at the start before we'd really gone over the paytable with a fine-toothed comb. 0 What's the appropriate response to landing a winning cluster spanning more than half of an 8x6 sized game grid and 0 only getting 2x the bet for it?

It takes a mindset readjustment to get the most out of

Rotiki. Forget scoring 0 hugely juicy cluster payouts or chaining together crazy long consecutive cascading wins. Respins can be quite long in duration, but 0 it is weird how low payouts can be, even when almost every position on the grid is covered by winning 0 symbols. Usually, when so much of the board was covered, it was because more than one winning symbol type had 0 been used to do so. As an example, the first time we made it through to the Treasure Room bonus, 0 the full grid win value going in was 2.4x the bet.

Rotiki just does things differently, and there may be players 0 drawn to its unique characteristics. Once we got over the shock induced by its trivial payout values, filling the grid 0 and moving to The Treasure Room became something of a personal challenge. There was something oddly compelling about the mission. 0 Perhaps part of the compulsion is knowing the chance of achieving Rotiki's maximum payout is 1 in 21,541, which is 0 low for an online slot. However, reality bites after finding out the max win is only 1,000x the bet, which 0 on some level does feel fair enough for this sort of game.

We know Play'n GO has a black belt in 0 making grid slots, practically redefining the genre on more than one occasion. That gets them off the hook to a 0 degree for Rotiki, and the studio must have had certain players in mind when they made it. Those who feel 0 drawn by Rotiki's charms should be satisfied with the unique type of experience it has to offer. Anyone else might 0 be as bafflingly amused as we were.
